

SY 2021-2022 Reopening Plan
Kihei Charter School

1. Kihei Charter School will provide for the safe return of its students for in-person learning for the 2021-2022 school year. Our safety plan will be in alignment with the latest guidance from the Department of Health, the Centers for Disease Control, county of Maui, and state of Hawaii. Ultimately, we will continue the practice of social distancing, daily sanitation of classrooms and common areas, wearing masks while indoors, proper classroom ventilation, the establishment of safe and hygienic practices, and enforcing aligned policies and procedures to deal symptomatic individuals.
2. Instruction will be delivered in a 100% face-to-face learning model.
3. Student progress will be assessed via the daily notation of attendance, summative and formative assessments, and performance and project-based assessments.
4. Our school established a close connection with the Department of Health and the Hawaii Keiki Nurses during the 2020-2021 school year. We will remain in contact with these groups to ensure our safety plan remains in compliance with all the latest recommendations. Furthermore, our administration, school safety team, staff, students and families will all be updated with the current plan.
5. The board meeting agenda is attached. These items were addressed under the SY 2021-2022 Plan. The minutes are not included since they will not be ratified until the next board meeting in October.
