Act 242 Public Charter School Data **for School Year 2024-2025**

The Commission collected data from all 39 public charter schools for the school year 2024-2025. Note that in the school year 2024-2025, 39 charter schools were in operation across the state. Hawai'i Island was home to 14 charter schools and Kaua'i was home to 5 charter schools. There is one in operation on the island of Maui and another on Molokai, while 18 charter schools operated on O'ahu. One charter school operated statewide, one operated on five islands, and another operated on four islands.

38 of the charter schools have reported the data requested of them by Act 242, and one charter has closed after the 2024-2025 school year. The Charter School Commission is currently in the process of coordinating with the Department of Education Civil Rights and Compliance Branch to offer free training for all school employees that is consistent with the new 2024 Title IX Regulations that officially took effect in August 2024. The data is being presented to you in a statewide format as well as by county and school level. Concerns about unintended disclosure or identification of the complainants/victims require the Commission to de-identify the schools as some of our public charter schools have small enrollment counts.
