Exhibit B: Performance Frameworks (Academic, Financial, and Organizational)
EXHIBIT B
ACADEMIC PERFORMANCE FRAMEWORK

The Academic Performance Framework consists of two sections: Student Academic Outcomes and Value Added.

1. **Student Academic Outcomes**

   This section contains the measures that are required by Section 302D-16, HRS including:

   a) **Student academic proficiency**: schools will set a target for the percentage of students who score at the levels of proficient or above on the statewide assessments in English Language Arts or Hawaiian Language Arts and math.

   b) **Student academic growth**: schools will set a target for growth based on statewide assessment results, as measured under the state ESSA plan for federal reporting and accountability or revised state accountability system (i.e., Strive HI).\(^1\)

   c) **Achievement gaps in proficiency between major subgroups**: schools will set a target for high-needs proficiency rates in order to close the achievement gap between the non-high needs and high needs student subgroups.\(^2\)

   d) **College and career readiness**: schools will set a target for each college and career readiness indicator for each grade division served.

      a. For high schools and schools with a high school division, the readiness measures must include the four-year graduation rate.\(^3\) In addition, schools may also add the five-year graduation\(^4\) and/or college-going rates.\(^5\)

---

\(^1\) If this measure is not calculated using the current growth model for the state ESSA plan for federal reporting and accountability or revised state accountability system (i.e., Strive HI), this measure will not be calculated for the Academic Performance Framework until a calculation methodology for growth is determined and approved by the Commission.

\(^2\) High needs students include the following full school year students who tested: economically disadvantaged, students with disabilities (IDEA only), English Language Learners, recent exits (2 years) for students with disabilities and English Language Learner. Non-high needs students comprise of all remaining full school year students who tested. See [2015-16 Strive HI Indicators and Measures Technical Report](#) for more details.

\(^3\) The four-year graduation rate is calculated using a four-year adjusted cohort graduation rate (ACGR) methodology. The graduation rate reported is lagged by one year. The rate reported for 2015-2016 results are based on the four-year cohort graduating by the end of 2014-2015.

The four-year ACGR = \[
\frac{\text{# of on-time graduates in a year}}{\text{# of first time entering 9th graders + transfers in – transfers out}}
\]

- Graduates are students who receive a diploma within four years
- on-time for all students is four years
- graduation requirements may be completed during the summer of the given final year
b. For middle schools and schools with middle school divisions, schools may choose any measure that is consistent with the middle school college and career readiness measures used or captured by the DOE such as chronic absenteeism⁶ or average daily attendance⁷, ACT Aspire exam, eighth graders taking and passing Algebra 1, or the PSAT.

c. For elementary divisions, schools will set a target for attendance and may choose between chronic absenteeism, or average daily attendance rates as defined above.

Optional other measures: optional measures are not required by Section 302D-16, HRS. They must focus on valid and reliable student outcome data and may be school-developed or drawn from existing data sources such as DOE data or school-selected formative assessment.

When selecting measures within these categories, the availability and reliability of the data are important, and sometimes limiting, factors. For this reason, the Academic Performance Framework measures pull from Strive HI data and other data collected by the DOE for all public schools statewide.

For each measure, schools will work with staff to set annual target ranges, and interim targets if required by the school’s charter contact. These ranges will be developed by analyzing a school’s historical data, as well as comparative data for each school’s geographic complex and all schools statewide.

- GED certificates of completion and other school-based certificates do not count as graduates for this calculation
- students who transfer in will be added to the school’s appropriate graduating cohort
- students who transfer out must be documented by the sending school with an official transcript from the receiving school, only then can the student be removed from the cohort, students whose status is unknown or dropped out of the system are non-graduates
- students who are retained in grade 9 count only in their “first time grade 9” cohort.

See 2015-16 Strive HI Indicators and Measures Technical Report for more details.

⁴ The five-year graduation rate is an extended year adjusted cohort graduation rate that accounts for graduates for an additional, fifth year. This rate is calculated following the same methodology used for the four-year adjusted cohort graduation rate. See 2015-16 Strive HI Indicators and Measures Technical Report for more details.

⁵ This metric reports the percent of high school diploma earners with confirmed postsecondary enrollment (based on National Clearing House data) within 16 months after high school graduation. See College and Career Readiness Indicators Report Class of 2015 Technical Report for more details.

⁶ Chronic absenteeism is based on the number of full school year students (as defined by DOE) enrolled at a school (denominator) and the number of full school-year students who were absent, excused or unexcused, for 15 days or more during the full school year period (numerator). See 2015-16 Strive HI Indicators and Measures Technical Report for more details.

⁷ Average Daily Attendance = (sum of full day present attendance days x 100) / (sum of the total number of possible school attendance days for each active student).

Excused and unexcused absences are treated as absences in the attendance calculation.
Calculation example: There are 30 students at your school and it is the 10th day of the new school year. During the first 10 days of school 9 students missed a full school day. The denominator is based on the total number of possible school days: 30 students x 10 days = 300. The numerator is 30 students x 10 days of school/ 9 days of absences = 291. (291 x 100) / 300 = 97%
2. **Value Added**

The second section of the Academic Performance Framework captures the work that schools are doing to add value to their school community or the education system at large. Each school must create a minimum of one Value Added goal. This section can measure the implementation of systems designed to increase program effectiveness, innovative practices and those that are aligned to the school’s mission and vision. These goals will be specifically articulated and measurable and will include implementation timelines.

**Evaluation and Reporting**

For each measure included in its Academic Performance Framework, schools will set targets for each year of their contract. The Commission will publicly report these targets, as well as each school’s performance on the measures, to the extent possible while protecting the privacy and confidentiality of students’ data. The Commission will also report whether the school met its annual target, exceeded the target, or did not meet the target.

If the School does not achieve results within the set target range, the School is subject to the Intervention Protocol, provided in Exhibit D of this Charter Contract.

**Modifications to the Academic Performance Framework During the Contract Period**

Modifications can be made to the APF during the contract period in limited circumstances:

1. Modifications to the student outcome targets, which can be made when a school experiences a major shift in demographics.

2. Measures in both the Academic Student Outcomes and Value Added sections may be modified or added,

3. Academic Student Outcome targets may be renegotiated should the approved ESSA state accountability plan include extensive deviations from the methodology currently described in this submittal.

New Student Academic Outcome measures may be added between March 1st and May 15th for implementation the following year. Value Added measures may be added or modified after the school conducts a comprehensive needs assessment or similar strategic planning, but no later than July 1st.

Academic Performance Framework

II. Value Added

Inaugurate Windward Community College (WCC) and Hakipu‘u Learning Center (HLC) Middle College Collaboration to complement current WCC/HLC Running Start collaboration.

Being situated on the campus of WCC has given HLC students several post-secondary education opportunities, e.g., Running Start Program in which HLC juniors and seniors can receive dual credits for college and high school, participation in the TRiO program, access to noted speakers, etc. To further contribute to student readiness for community, post high learning/college, and career readiness, HLC is working with WCC to launch a Middle College option for HLC students in SY2017-18. This initiative will enable HLC students to enter a college pathway in the summer after their 8th grade and work toward obtaining an associate’s degree while also fulfilling requirements for their high school diploma.

Key milestones include:
• Inaugurate Middle College collaboration with Windward Community College (WCC) to give HLC and other students the opportunity to graduate from high school and obtain an AA simultaneously
• Develop the HLC student support framework for the expanded WCC/HLC Middle College collaboration
• Finalize plans to launch the Middle College initiative in the 2018 Spring semester
• Focus on Student development, growth, and achievement
  1. Readiness for contribution to Career, College, and Community
  2. Enhance student engagement in lifelong learning
  3. Introduction to post high learning experiences

III. Interim Assessment Target

Hakipu’u Learning Center implements the Renaissance STAR math and reading assessments as an internal assessment for students in grade 4 through 11. The data is used to establish each student’s annual math and reading growth targets, guide overall project and content goal setting, and inform curriculum and support strategies to support student needs. The percentage of full school year students with an SGP of 50 or more on STAR reading and math will increase from the fall assessment administered between August 15th and October 15th to the Spring assessment administered between April 15th and May 15th by 2% in reading and 3% in math.

EXHIBIT B
FINANCIAL PERFORMANCE FRAMEWORK

The Financial Performance Framework ("Framework") serves as a tool for the Commission to assess the financial health and viability of charter schools in its portfolio. The framework intends to provide a financial frame of reference based on current and past financial performance of charter schools. The indicators used in the framework are based on industry standard financial measures (e.g. ratios, variances) designed to be viewed in the aggregate with other complementary and supplementary information (e.g. timely and accurate financial and reporting practices, management practices). No single indicator or point in time data point gives a full picture of the financial situation of a school. Taken together, however, the indicators provide a qualitative assessment of the school’s near-term financial health, mid-term capacity, and long-term financial sustainability.

Risk-Based Approach

The framework adopts a risk assessment model as part of ongoing oversight and monitoring of charter schools’ fiscal activities, and renewal decision-making. The model aligns the framework to the unique funding and governance environment for charter schools in the State of Hawai‘i. This risk-based approach will help identify areas of strength and weakness, highlighting controls that are designed to mitigate risks.

School(s) will be closely monitored if there is heightened risk of financial problems. Financial monitoring may include, but not limited to, request for reports or other documentation, inquiries through written or telephone communications, desk audits, or on-site visits, announced or otherwise. Moreover, a school may be requested to develop an appropriate corrective action plan in accordance with the Intervention Protocol (Exhibit D) to address any monitoring issues identified during the risk assessment. The corrective action plan provides a school an opportunity to explain the issue(s); identify measurable solution(s); identify person(s) who will be responsible for each solution; set timelines; and monitor the progress of the corrective action plan.
Annual Risk Assessment Process

The annual risk assessment evaluates whether the financial viability of a school is at-risk based on the Commission’s review of financial information which will be drawn from the school’s annual audited financial statements or financial review. The inclusion of a “component unit” (an affiliated non-profit entity) may apply when a school’s annual audited financial statements include the presentation of reporting the audited component unit. The Commission’s assessment may also include other financial information and/or a more detailed examination of the school’s financial position and practices, as needed. The Commission may also consider the more current and more detailed information to determine whether the risk assessment result is still applicable throughout the assessment period and the degree to which it is, in fact, an indication of financial risk or distress or mitigation.

The risk assessment will focus on six indicators, or measures based on the National Association of Charter School Authorizers (NACSA) standards. Each indicator will be assessed on a scale from 1 to 5, with 1 being the lowest risk and 5 the highest risk. All six indicators will collectively make up a school’s overall risk level. The annual risk assessment result for a school will be determined using a balanced weighted formula utilizing the individual scores calculated for each indicator as follows:

\[(\text{Current Ratio} \times 0.10) + (\text{Unrestricted Days Cash} \times 0.35) + (\text{Debt to Asset Ratio} \times 0.10) + (\text{Cash Flow} \times 0.10) + (\text{Total Margin} \times 0.25) + (\text{Budget Variance} \times 0.10)\]

The individual and final risk assessment results will be represented as one of five categories based on the school’s risk assessment calculations as color-coded below and will be rounded to the nearest whole number.

Near Term Indicators

Current Ratio

\[ \text{Current Ratio} = \frac{\text{Current Assets}}{\text{Current Liabilities}} \]

The current ratio shows the relationship between a school’s current assets and current liabilities. Current assets are balance sheet accounts (e.g. cash, receivables) that include the value of all assets that are expected to be converted to cash through normal operations within the current fiscal year. Current liabilities represent obligations (e.g. payables, accrued payroll, accrued vacation) that are payable in cash within a fiscal year. This ratio gives an indication of a school’s ability to pay its obligations over the next twelve months. A school may be at-risk if it is unable to meet its current obligations.

This indicator accounts for **10 percent** of a school’s aggregate final risk assessment.

</tr>
</tbody>
</table>

Unrestricted Days of Cash on Hand

\[ \text{Unrestricted Days Cash} = \frac{\text{Days Cash}}{\left(\frac{\text{Total Expenses} - \text{Depreciation Expense}}{365}\right)} \]

The unrestricted days of cash on hand provides the number of days a school can pay its current expenses without another inflow of cash. Cash balances fluctuate since schools can expend and receive money on an almost daily basis. It indicates whether a school maintains a sufficient cash balance to meet its cash obligations. A school may be at-risk if there is insufficient cash to meet its cash obligations.

The indicator looks at a fixed point in time (the time the financial statement is prepared) and a trend over a period of time. Although this indicator is at a fixed point in time, it tells whether a school may have challenges in meeting its cash obligations. Note that this indicator looks at unrestricted cash, not cash that already has been earmarked for a specific purpose, such as renovations or facilities.

This indicator accounts for **35 percent** of a school’s aggregate final risk assessment.

Sustainability Indicators

Debt to Asset Ratio

*Debt to Asset Ratio = Total Liabilities ÷ Total Assets*

The Debt to Asset Ratio compares a school’s financial liabilities against the assets it owns. A lower ratio generally indicates stronger financial health. A higher ratio indicates that the school may be at-risk of not being able to pay back its debts. It is generally accepted indicator of potential long-term financial issues.

This indicator accounts for **10 percent** of a school’s aggregate final risk assessment.

<td>Ratio is greater than (&gt;) 0.75</td>
</tr>
</tbody>
</table>

Cash Flow

*Cash Flow = Year-end Cash Balance – Beginning Year Cash Balance*

Cash Flow measures a school’s change in cash balance from one period to another. This indicator is similar to days’ cash on hand, but it provides insight into a school’s long-term stability, as it helps to assess a school’s sustainability over a period of time in an uncertain funding environment. A positive cash flow over time generally indicates increasing financial health and sustainability.

This indicator and accounts for **10 percent** of a school’s aggregate final risk assessment.

<td>Current Year Cash Flow is negative (-) and having a downward trend over three years or more</td>
</tr>
</tbody>
</table>
Total Margin

Total Margin measures the surplus or deficit a school yields out of its total revenues. This indicator is important because a school cannot operate at a deficit for a sustained period of time without the risk of closure. The intent of this indicator is not for the schools to be profitable, but is important for charter schools to operate within its available resources in a particular year and to build a reserve to support growth and sustainability.

This indicator is calculated by dividing net income by total revenue and accounts for 25 percent of a school’s aggregate final risk assessment.

</tr>

Planning & Budgeting

Budget Variance

Budget Variance = Actual Total Revenues ÷ Projected Total Revenues in the Charter School’s Board-Approved Budget

The budget variance depicts actual versus projected incoming revenues for a fiscal year. This indicator is important because revenues drive the development of a school’s budget. While the per-pupil funding is the primary revenue source for charter schools, there are other sources (e.g. federal funds, grants, other state funds) that provide the basis for determining costs such as staffing and supplies. A budget based on revenues that are significantly more than its actual revenues may be at-risk of not meeting all of its budgeted expenses. Budgeted revenues that do not exceed actual revenues would not have a significant impact to the risk assessment rating scale.

This indicator accounts for 10 percent of a school’s aggregate final risk assessment.

Financial Management and Oversight

Compliance

The Commission ensures that the school complies with applicable laws, rules, regulations and provisions of the charter contract relating to financial reporting requirements, and to financial management and oversight expectations as evidenced by an annual independent audit or review, including but not limited to:

- Complete and on-time submission of financial reports, including annual budget, revised budgets (if applicable), periodic financial reports as required by the authorizer and any reporting requirements if the board contracts with an Education Service Provider (ESP)
- On-time submission and completion of the annual independent audit and corrective action plans, if applicable
- No charging of tuition
- Adequate management and financial controls
- All reporting requirements related to the use of public funds
- An unqualified audit opinion
- An audit devoid of significant findings and conditions, material weaknesses or significant internal control weaknesses
- An audit that does not include a going concern disclosure in the notes or an explanatory paragraph within the audit report

If the School does not comply with the requirements of this Financial Performance Framework, the School is subject to the Intervention Protocol, provided in Exhibit D of this Charter Contract.¹

As provided in the Charter Contract:

14.1 Monitoring. The Commission shall continually monitor the performance and legal compliance of the School. The Commission shall have the authority to conduct or require oversight activities that enable the Commission to fulfill its responsibilities, so long as those

¹ in accordance with §302D-17 Ongoing oversight and corrective actions;

(a) An authorizer shall continually monitor the performance and legal compliance of the public charter schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the Charter Contract.
responsibilities are consistent with the intent of Chapter 302D, HRS, and adhere to the terms of this Charter Contract.
EXHIBIT B
ORGANIZATIONAL PERFORMANCE FRAMEWORK

The Organizational Performance Framework serves as the means by which the Commission addresses one of an authorizer’s core responsibilities: protecting the public interest. The framework ensures that charter schools meet all applicable federal, state, and local laws and regulations as well as contractual requirements.

The Commission pledges to exercise its best efforts to meet NACSA’s standards on performance evaluation and compliance monitoring by implementing an accountability system that effectively streamlines federal, state, and local performance expectations and compliance requirements while protecting schools’ legally entitled autonomy and minimizing school’s administrative and reporting burdens.

The Organizational Performance Framework requires the School to complete the Assurance of Compliance Statement (included in this framework) on an annual basis. The Assurance of Compliance Statement identifies the specific federal, state, and local laws and regulations and contractual requirements that the School is accountable to. Regardless of the specific references to law, rule, regulation, or contractual provision contained in the Statement, the School is required comply with all relevant laws and regulations at all times.

The Commission will evaluate and assess performance under the framework by:
1. Conducting audits of any compliance requirements associated with the references identified in the Statement;
2. Conducting at least one school site visit during the term of the Charter Contract;
3. Requiring submission of documentation verifying compliance through the Commission’s online compliance management system; and
4. Reporting on the School’s fulfillment of compliance requirements specified in this framework.

The level of oversight the School will receive may vary during the term of the Charter Contract. If the School does not comply with the requirements of this Organizational Performance Framework, the School is subject to the Intervention Protocol, provided in Exhibit D of this Charter Contract.

Within the first quarter of each fiscal year, the Commission will provide an annual Organizational Framework Report to the School that covers the previous year. The report will include a narrative of the School’s performance under the framework, including any compliance breaches and actions required through the Intervention Protocol.
ASSURANCE OF COMPLIANCE STATEMENT

This document provides assurances to the Commission that the School is in compliance with the laws, rules, regulations, policies, and Charter Contract provisions set forth below. This document will be assigned to the School through the Commission’s online compliance management system and must be completed, signed, and dated by the School’s board chair and school leader annually.

In addition to this Assurance of Compliance Statement, the School is required to comply with all relevant laws and regulations at all times, regardless of the specific references in this document.

The School should read through each reference below, and then check the corresponding box to assure the Commission that the School is in compliance with the specified items identified below for the specified school year. A School with compliance breaches that require the Intervention Protocol will need to resolve the compliance breach by the end of the school year or be in the process of implementing a corrective action plan that resolves the compliance breach.

EDUCATIONAL SERVICE PROVIDER REQUIREMENTS

For the purpose of this section an Educational Service Provider (ESP) is defined as a non-profit or for-profit entity that is contracted by the School to provide services that would otherwise be handled by employees of the School, which include, but are not limited to, operational back office functions and services related to the instructional design of the School, in return for fees. ESP arrangements sometimes give a third party substantial responsibility for the operation of a charter school and control over the school's finances.

While the Commission is not responsible for monitoring that contractual relationship, it does have an obligation to ensure that the School’s governing board retains its statutory responsibilities and that the School-service provider relationship will not inhibit the Commission from fulfilling its oversight responsibilities. The following requirements ensure that both the School's governing board and the Commission retain authority to fulfill their legal rights and responsibilities under the Charter Contract and applicable law.

1. The ESP agreement shall be subject to, and shall incorporate by reference, the terms and conditions of the Charter Contract.
2. The term of the ESP agreement shall not exceed the term of the Charter Contract.
3. No provision of the ESP agreement shall interfere with the duty of the governing board to exercise its statutory, contractual, and fiduciary responsibilities governing the operation of the School. No provision of the ESP agreement shall prohibit the School's governing board from acting as an independent, self-governing public body, or allow decisions to be made other than in compliance with Chapter 302D, HRS.
4. The ESP agreement shall require the ESP to defend, indemnify, and hold harmless the State of Hawaii, the Commission and the School, and their officers, employees and agents from and against all liability, loss, damage, cost and expense, including all attorneys' fees, and all claims, suits and demands therefore, arising out of or resulting from the acts or omissions of the ESP or the ESP’s employees, officers, agents, or subcontractors under the ESP agreement. The ESP agreement shall not require the School to defend, indemnify or hold harmless the ESP. The ESP agreement shall contain insurance and indemnification provisions outlining the coverage the ESP will obtain.
5. The ESP agreement shall describe the specific services for which the ESP is responsible and shall clearly delineate the respective roles and responsibilities of the ESP and the School in the management and operation of the School, including development, approval, and oversight of the School's budget; development, approval, and oversight of the School's curriculum; and oversight of the ESP's services.
6. The ESP agreement shall expressly provide that the School retains, at all times, ultimate responsibility for the School's budget and curriculum.
7. The ESP agreement shall include procedures by which the ESP will be accountable to the School including expressly addressing how the School will evaluate and hold the ESP accountable in relation to the Performance Frameworks (Exhibit B).

8. The ESP agreement shall be terminable by the School in accordance with its established termination procedures.
   a) Upon default by the ESP, including without limitation any act or omission of the ESP that causes a default under the Charter Contract or that causes the School to be in material violation of applicable law; or
   b) For other good cause as agreed by the School and the ESP.

9. The ESP agreement shall provide that the financial, educational, and student records pertaining to the School are School property and that such records are subject to the provisions of the Uniform Information Practices Act (Chapter 92F, HRS). All School records shall be physically or electronically available, upon request, at the School’s physical facilities. Except as permitted under this Contract and applicable law, no ESP agreement shall restrict access to the School’s records by the Commission, the DOE, the Office of the Auditor, or other authorized party in compliance with Section 14.3 of the Charter Contract.

10. The ESP agreement shall require that the ESP furnish the School with all information deemed necessary by the School or the Commission for the proper completion of the budget, quarterly reports, or financial audits required under the Charter Contract.

11. The ESP agreement shall provide that all financial reports provided or prepared by the ESP shall be presented in the format prescribed by the Commission.

12. The ESP agreement shall provide that all employees or contractors of the ESP who work in close proximity with students of the School shall be subject to criminal background check requirements in accordance with Section 12.7 of the Charter Contract.

13. The ESP agreement shall contain provisions requiring compliance with all requirements, terms, and conditions established by any federal or State funding source.

14. The ESP agreement shall provide that the School retains responsibility for selecting and hiring the auditor for the independent annual audit required by the Charter Contract.

15. If an ESP purchases equipment, materials, and supplies using public funds on behalf of or as the agent of the School, the ESP agreement shall provide that such equipment, materials, and supplies shall be and remain the property of the School.

16. The ESP agreement shall contain a provision that clearly allocates the respective proprietary rights of the School governing board and the ESP to curriculum or educational materials. At a minimum, the ESP agreement shall provide that the School owns all proprietary rights to curriculum or educational materials that (i) are both directly developed and paid for by the School; or (ii) were developed by the ESP at the direction of the School governing board with School funds dedicated for the specific purpose of developing such curriculum or materials. The ESP agreement may also
include a provision that restricts the School's proprietary rights over curriculum or educational materials that are developed by the ESP from School funds or that are not otherwise dedicated for the specific purpose of developing School curriculum or educational materials. The ESP agreement shall recognize that the ESP’s educational materials and teaching techniques used by the School are subject to state disclosure laws and the Uniform Information Practices Act.

If the School intends to enter into a lease, execute promissory notes or other negotiable instruments, or enter into a lease-purchase agreement or other financing relationships with the ESP, then such agreements shall be separately documented and not be a part of or incorporated into the ESP agreement. Such agreements shall comply with Chapter 37D, HRS, if applicable, and shall be consistent with the School’s authority to terminate the ESP agreement and continue operation of the School.

18. The ESP agreement shall provide that Hawaii law governs any legal proceeding arising out of a dispute between the School and the ESP.
Exhibit D: Intervention Protocol
EXHIBIT D
INTERVENTION PROTOCOL

In accordance with Section 302D-17, HRS, this Intervention Protocol is established pursuant to the Commission’s authority and responsibility to monitor the performance and legal compliance of charter schools in accordance with the terms of this Charter Contract and consistent with nationally recognized principles and standards for quality authorizing. It enables the Commission to take timely and appropriate action to notify the School about performance and/or compliance concerns and provide the School a reasonable opportunity to remedy such problems.

NOTICE OF CONCERN PROTOCOLS

1. Upon finding that the School has failed to meet legal or contractual compliance obligations (including any goals, objectives, or outcomes set in the performance frameworks), the Commission may issue a Notice of Concern, pursuant to Section 2.10 Notices of this Charter Contract.

2. Upon receiving a Notice of Concern, the School’s Governing Board will be required to provide a written response to the Commission within fourteen calendar days and the response must include at least one of the following:
   i. a description of the remedy of the compliance breach, if the breach has been completely remedied, including evidence of such remedy;
   ii. a written notification disputing the determination that a compliance breach has occurred with accompanying evidence in support of that assertion;
   iii. a Corrective Action Plan designed to remedy the compliance breach that includes timelines and persons responsible for each action within the plan. If the submitted Corrective Action Plan is not mutually agreeable to both the School and the Commission staff, the matter will be brought to the Commission at a General Business Meeting.

3. If the School disputes the Notice of Concern, the Commission will consider the matter at a General Business Meeting and retract, modify, or uphold the Notice of Concern.

4. The Commission shall be updated on the issuance, remedy, and progress towards implementation of Corrective Action Plans in the Executive Director’s Report during General Business Meetings.

ESCALATION OF NOTICES OF CONCERN

If the School fails to respond or make progress towards correcting the breach in the time as stated in the Corrective Action Plan, repeatedly fails to comply with applicable law or Contract provision(s), or when the breach presents an immediate concern for student or employee health and safety, the Commission may take any or all of the following actions:
1. Issue a Notice of Deficiency which may include prescriptive, specific action plans and conditions for the School; or

2. Issue a Notification of Warning which initiates revocation proceedings in accordance with Chapter 302D, HRS, and applicable administrative rules.

In accordance with Section 302D-17(c), HRS, this Intervention Protocol shall not apply in any circumstance in which the Commission determines that a problem or deficiency warrants revocation, in which case Chapter 302D, HRS, and the established rules, procedures and protocols for revocation shall apply.
Exhibit E: Renewal, Non-renewal, and Revocation
EXHIBIT E
RENEWAL AND NON-RENEWAL CRITERIA AND PROCESS

The School will begin the process for renewal or non-renewal in the fall of the final year of the contract. Soon after academic results are released for the previous school year, typically in September or October, the School will receive a Final Performance Report for each year of the contract. The Final Performance Report shall summarize the School’s performance record to date as well as the due process afforded to the School through the administrative rules. Each school will have 30 days from the time of receipt of the Final Performance Report to complete the renewal application and respond to the Final Performance Report.

PROCESS FOR SCHOOLS THAT DID NOT RECEIVE A NOTICE OF DEFICIENCY DURING THE CONTRACT PERIOD

If the School did not receive a Notice of Deficiency during the contract period will submit a renewal application for a five-year contract after receiving the Final Performance Report. The School may also request a hearing pursuant to Sections 8-505-12(b)(2) or 8-505-16(3), HAR.

PROCESS FOR SCHOOLS THAT RECEIVED A NOTICE OF DEFICIENCY DURING THE CONTRACT PERIOD

If the School received a Notice of Deficiency at any time during the contract period, the Commission will conduct a performance review hearing within 45 days of receiving the School’s application for renewal. During the performance review hearing, the Commission will determine whether or not the School has earned a renewal of the charter and may apply conditions if applicable.

At the performance review hearing, the Commission may decide not to renew the Charter Contract if it is determined that the school:

1. **Committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under Chapter 302D, HRS, or the charter school contract.**

   In evaluating this provision, the Commission will place a heavier emphasis on violations of law or contract when the law or contract provision was designed to protect the health or safety of students or protect equal access and equity of educational opportunities.

2. **Failed to meet or make sufficient progress toward performance expectations set forth in the contract.**

   When evaluating this provision for the Academic Framework, the Commission shall find that sufficient progress was not made toward academic performance expectations when there is a pattern of failing to meet a majority of targets, there is a pattern of failing to meet targets coupled with a downward trend in performance, or there is a pattern of failure to implement corrective action plans.

---

1 The processes and procedures pertaining to renewal or nonrenewal of a charter contract are found in Sections 8-505-10 through 8-505-13, HAR.
When evaluating this provision for the Organizational and Financial Performance Frameworks, the Commission shall find that progress has not been made when standards have not been met and/or there is a pattern of failure to implement corrective action plans in a timely manner.

(3) **Failed to meet generally accepted accounting principles of fiscal management.**

The Commission shall find failure to meet standards when there is a pattern of fiscal mismanagement in addition to failing to take corrective actions to address significant financial risks identified during the contract period.

(4) **Substantially violated any material provision of law from which the charter school is not exempted.**

When evaluating this provision, the Commission will place a heavier emphasis on violations of law that were designed to protect the health and safety of students and access and equity of educational opportunities.
