The School shall consider the results of such background checks in its decision to employ or utilize such persons either directly or through a School Management Contract.

The School may terminate the employment of any employee or deny employment to an applicant if the person has been convicted of a crime, and if the School finds by reason of the nature and circumstances of the crime that the person poses a risk to the health, safety, or well-being of others. The Commission shall have the authority to conduct oversight activities that enable the Commission to fulfill its responsibilities under HRS Chapter 302D, including conducting appropriate inquiries and investigations, so long as those activities are consistent with the intent of HRS Chapter 302D, and adhere to the terms of this Charter Contract. Enforcement of this Charter Contract may include, but is not limited to, taking corrective action, development of corrective action plans, imposing sanctions, non-renewal, revocation, or termination of this Charter Contract.

Section 17.4 Right to Review

The Commission is a state educational agency with oversight and regulatory authority over the schools that it authorizes as provided by HRS Chapter 302D. Upon request, the Commission, or its designee, shall have the right to review all records created, established or maintained by the School in accordance with the provisions of this Charter Contract, applicable federal and state law and regulations. This right shall be in addition to the Commission's right to require the School to submit data and other information to aid in the Commission's oversight and monitoring of the School as provided under this Charter Contact and applicable law.

When the request is for on-site inspection of records, the Commission shall be granted immediate access. If the request is for the production of records, then the Commission will include a timeframe in which the records must be produced and provided; the School must adhere to this timeframe.

This information, regardless of the form in which it is disclosed, will be used by the Commission, and its authorized representatives, to satisfy its obligations to audit, evaluate, and conduct compliance and enforcement activities relative to the School.

Section 17.5 Inquiries and Investigations

The Commission may conduct or require oversight activities including, but not limited to, inquiries and investigations consistent with HRS Chapter 302D, regulations, and the terms of this Charter Contract. The Commission may gather information or evidence from any individual or entity with information or evidence that may be relevant to the inquiry or investigation.

Section 17.6 Site Visits

The Commission may visit the School at any time and may, at its discretion, conduct site visits and monitoring. When appropriate, the Commission shall make reasonable efforts to provide notice of visits. Such site visits may include any activities reasonably related to fulfillment of the Commission's oversight responsibilities including, but not limited to, inspection of the facilities; audit of financial books and records; inspection of records maintained by the School; interviews and observations of the principal, staff, school families, staff of an affiliated nonprofit or educational service provider and community members; and observation of classroom instruction.

Section 17.7 Notice of Concern

The Commission shall notify the School of perceived problems about unsatisfactory performance or failure to meet legal or contractual compliance obligations (including any goals, objectives, or outcomes set in the performance frameworks) and may issue a **Notice of Concern**. The School will be given reasonable opportunity to respond and remedy the problem, unless revocation is warranted in accord with HRS §302D-17(c) and/or HRS §302D-18(g).

Failure to issue a **Notice of Concern** shall not be (i) construed as a waiver or relinquishment of any requirement under applicable laws, rules, policies, procedures, contractual terms and conditions, or performance expectations; or (ii) deemed a necessary precedent to non-renewal or revocation.

Section 17.8 Notice of Concern Intervention Protocols

Upon receiving a **Notice of Concern**, the School's Governing Board will be required to provide a written response to the Commission within fourteen (14) calendar days and the response must include at least one of the following:

- (a). a description of the remedy of the compliance breach, if the breach has been completely remedied, including evidence of such remedy;
- (b). a written notification disputing the determination that a compliance breach has occurred with accompanying evidence in support of that assertion; or
- (c). The SPCSC Corrective Action Plan Form, describing how the School will remedy the compliance breach that includes timelines and persons responsible for each action within the plan. If the submitted corrective

action plan is not mutually agreeable to both the School and the Commission staff, the matter will be brought to the Commission at a General Business Meeting.

If the School disputes the **Notice of Concern**, the Commission will consider the matter at a General Business Meeting and retract, modify, or uphold the **Notice of Concern**. The Commission may be updated on the issuance, remedy, and progress towards implementation of Corrective Action Plans in the Executive Director's Report during General Business Meetings.

Section 17.9 Notice of Deficiency and Notice of Prospect of Revocation

If the School fails to respond or make progress towards correcting the breach in the time allowed by the Corrective Action Plan, repeatedly fails to comply with applicable law or Contract provision(s), or when the breach presents an immediate concern for student or employee health and safety, the Commission may take any or all of the following actions:

- (a). Issue a **Notice of Deficiency** which may include prescriptive, specific action plans and conditions for the School; or
- (b). Issue a **Notification of Prospect of Revocation**, which initiates revocation proceedings, in accordance with HAR §8-505-16.

In accordance with HRS §302D-17, this Intervention Protocol shall not apply in any circumstance in which the Commission determines that a problem or deficiency warrants revocation, in which case HRS Chapter 302D, and the established rules, procedures and protocols for revocation shall apply.

Section 17.10 Other Legal Obligations

Nothing in this Charter Contract will be construed to alter or interfere with the Commission's performance of any obligations imposed under federal or state law.

ARTICLE XVIII: RENEWAL, BREACH OF CONTRACT, TERMINATION, AND DISSOLUTION

Section 18.1 Charter Contract Renewal

Pursuant to HRS §302D-18, a Charter Contract may be renewed for a successive five-year term of duration. Schools seeking to renew their Charter Contract will submit an Application for Contract Renewal in the final year of their contract. The Final Performance Report shall summarize the School's performance record to date as well as the due process afforded to the School through HAR §§8-505-10 through 8-505-13. Each school will have thirty (30) days from the time of receipt of the Final Performance Report to respond to the Performance Report, and to complete and submit the contract renewal application. The Commission will conduct a performance review within forty-five (45) days of receiving the School's application for renewal. During the performance review, the Commission will determine whether or not the School has earned a renewal of the Charter Contract and may apply conditions if applicable.

Section 18.2 Non-Renewal of a Charter Contract

At the performance review, the Commission may decide not to renew the Charter Contract if it is determined that the school:

- (a). Committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under HRS Chapter 302D, or this Charter Contract.**

In evaluating this provision, the Commission will place a heavier emphasis on violations of law or Charter Contract when the law or contract provision was designed to protect the health or safety of students or protect equal access and equity of educational opportunities.

- (b). Failed to meet or make sufficient progress toward performance expectations set forth in this Charter Contract.**

In evaluating this provision for the Academic Performance Framework, when there is a pattern of failing to meet expectations, coupled with a downward trend or lack of progress in performance, or there is a pattern of failure to implement corrective action plans in a timely manner, the Commission shall find that sufficient progress was not made toward academic performance expectations.

In evaluating this provision for the Organizational and Financial Performance Frameworks, when expectations and/or standards have not been met and/or there is a pattern of failure to implement corrective action plans in a timely manner, the Commission shall find that progress has not been made toward organizational and/or financial performance expectations.

(c). Failed to meet generally accepted accounting principles of fiscal management.

The Commission shall find failure to meet standards when there is a pattern of fiscal mismanagement in addition to failing to take corrective actions to address significant financial risks identified during the contract period.

(d). Substantially violated any material provision of law from which the School is not exempted.

When evaluating this provision, the Commission will place a heavier emphasis on violations of law that were designed to protect the health and safety of students and access and equity of educational opportunities.

Section 18.3 Revocation

The Commission may revoke a charter contract pursuant to HRS §302D-18 and HAR §8-505-15.

Section 18.4 Breach by the School

Violation of any material provision of this contract may, at the discretion of the Commission, be deemed a breach and be grounds for corrective action up to and including revocation or nonrenewal of this Charter Contract. In making this determination, the Commission will consider the underlying facts and circumstances including, but not limited to, the severity of the violation as well as the frequency of violations and adhere to the applicable procedures contained in HRS §302D-18. Material provisions include, but are not limited to, provisions imposing a requirement to comply with the Commission rules and policies and all applicable laws.

Section 18.5 Termination by the Commission

This Charter Contract may be terminated, after written notice to the School, and the Charter Contract revoked by the Commission in accordance with the provisions of HRS §302D-18 and associated administrative rules in HAR Title 8 Chapter 505.

The Commission may terminate the Charter Contract for any of the following reasons:

- (a). Any of the grounds provided for under HRS §302D-18, as it exists now or may be amended;
- (b). A material and substantial violation of any of the terms, condition, standards, or procedures set forth in the Charter Contract;
- (c). Failure to meet generally accepted standards of fiscal management and/or school's lack of financial viability;
- (d). Failure to provide the Commission with access to information and records;
- (e). Substantial violation of any provision of Applicable Law;
- (f). Failure to meet or make sufficient progress towards the goals, objectives, Performance Frameworks expectations, applicable federal requirements or other terms identified in this Charter Contract;

- (g). Bankruptcy, insolvency, or substantial delinquency in payments, by the School; and
- (h). Submission of inaccurate, incomplete, or misleading information in its Application or in response to a Commission's request for information or documentation.

This Charter Contract may also be terminated if the Commission determines that there are insufficient funds available for the operation of the School. Insufficient funds shall include, but not be limited to, reduction in, or elimination of, state allocation of funds. It shall also include depletion of grants or other funding sources to a degree that the Commission determines the School is no longer financially viable. Such termination will be effective on the date identified in the notice, which will be thirty (30) days or sooner, if the Commission determines that a shorter period is warranted.

Section 18.6 Other Remedies

The Commission may impose other appropriate remedies for breach including, but not limited to, imposing sanctions or corrective actions to address apparent deficiencies or noncompliance with legal requirements. These may include a requirement that the School develop and execute a corrective action plan within a specified timeframe. Failure to develop, execute, and/or complete the corrective action plan within the timeframe specified by the Commission will constitute a material and substantial violation of this Charter Contract. This provision shall be implemented in accordance with HRS §302D-5 and §302D-17 and guidance issued by the Commission.

Section 18.7 School-Initiated Closure

Should the School choose to terminate this Charter Contract before the end of the Contract term, it must provide the Commission with notice of the decision immediately after it is made, but no later than ninety (90) days before the closure of the school year. Notice shall be made in writing to the Commission.

Section 18.8 Invalid Provision

If any provision of this Charter Contract or the legal authority for entering into this Charter Contract is invalidated by the decision of any court of competent jurisdiction, the Commission shall determine whether any of the Contract provisions can be given effect in light of the decision and notify the Governing Board of the extent to which the Charter Contract can remain in effect without the invalid contract provision. If the Commission determines that the decision implicates the legal authority for entering into this Charter Contract, or materially and substantially alters the contract provision, the Charter Contract shall terminate on the date that the decision becomes final.

If the legal authority for entering into this Charter Contract is invalidated, then this Charter Contract shall immediately terminate when the Court's order becomes final.

Section 18.9 Financial Insolvency

Pursuant to HRS §302D-28.5, any public charter school that becomes financially insolvent shall be deemed to have surrendered its Charter Contract. For the purpose of this provision, the School shall be determined to be financially insolvent when it is

unable to pay its staff when payroll is due. The School shall cooperate with the Commission in ensuring the orderly closure of the School. The School shall comply with the Commission's closure policies and protocol, as adopted by the Commission.

Section 18.10 Termination for Withdrawal of Authority

In the event that the Commission's authority to perform any of its duties is limited in any way, such that it cannot perform its duties or obligation under the law and/or this Charter Contract, after the commencement of this Charter Contract and prior to normal completion, the Commission may terminate this Charter Contract, in whole or in part, by providing written notice to the Governing Board within seven (7) calendar days (or other appropriate time period). No penalty shall accrue to the Commission in the event this section shall be exercised.

Section 18.11 Termination for Non-Allocation of Funds

If funds are not allocated to continue this Charter Contract in any future period, or it appears that the legislature may not appropriate sufficient funding for the continual operation of the School, the Commission may terminate or suspend this Charter Contract by providing written notice to the Governing Board within seven (7) calendar days (or other appropriate time period). No penalty shall accrue to the Commission in the event this section shall be exercised.

Section 18.12 Termination for Conflict of Interest

The Commission may terminate this Charter Contract by written notice to the Governing Board if it is determined, after due notice and examination, that any party to this Charter Contract has violated the ethics or conflicts of interest provisions of this Charter Contract, or any other laws regarding ethics in public acquisitions and procurement and performance of contracts.

Section 18.13 Dissolution

Upon termination of this Charter Contract for any reason by the School, the Commission, upon expiration of this Charter Contract, or if the School should cease operations or otherwise dissolve, the Commission may supervise the dissolution of the business and other affairs of the School; provided, however, that in doing so the Commission will not be responsible for and will not assume any liability incurred by the School under this Charter Contract. The Governing Board and School personnel shall cooperate fully with the dissolution of the affairs of the School. The School's obligations for following a termination protocol and dissolving the affairs of the School shall survive the term of this Charter Contract.

Section 18.14 Disposition of Remaining Assets

In the event that the School closes, in accordance with Commission policy and Applicable Law, the School shall return to the State any and all remaining public assets, including tangible, intangible, and real property in use by the School but originally owned by the State or assets purchased using at least 25 percent of public funds, provided that any outstanding obligations of the School are fulfilled first pursuant to HRS §302D-19. School owned assets, including tangible, intangible, and real property, remaining after paying the School's debts and obligations and not requiring return or

transfer to donors or grantor, or other disposition in accordance with federal and state law, will be disposed of in accordance with federal and state law, including but not limited to HRS §302D-19 as amended. This provision shall survive the term of this Charter Contract.

The School shall not take action related to the requested amendment until the Commission has approved said amendment. A violation of this provision shall be considered material and substantial and may be grounds for immediate revocation of this Charter Contract. Changes in operation that require the School to obtain an amendment to this Charter Contract include but are not limited to the following:

A violation of this provision shall be considered material and substantial and may be grounds for immediate revocation of this Charter Contract.

In the event that any provision of this Charter Contract is declared invalid or unenforceable by a court, such invalidity or unenforceability shall not affect the validity or enforceability of the remaining terms of this Charter Contract.

Section 19.10 Waiver

The failure of either Party to insist upon the strict performance of or compliance with any term, provision, or condition of this Charter Contract shall not constitute or be deemed to constitute a waiver or relinquishment of the Parties' right to enforce the same in accordance with this Charter Contract.

Section 19.11 No Third-Party Beneficiary

The enforcement of the terms and conditions of this Charter Contract shall be strictly reserved to the Commission and the School. Nothing contained in this Charter Contract shall give or allow any claim or right of action whatsoever by any other person. ACADEMIC PERFORMANCE FRAMEWORK

Introduction

With increased school autonomy as a bedrock of charter school authorization, comes the expectation of high academic standards, achievement, and mission accomplishment. The Academic Performance Framework (“**APF**”) outlines the measures by which a charter school’s academic performance will be evaluated for purposes of annual monitoring, potential interventions, plans for improvement, and renewal and revocation decisions.

§302D-16 Performance framework. (a) The performance provisions within the charter contract shall be based on a performance framework that clearly sets forth the academic, financial, organizational and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school.

The Organizational Performance Framework serves as the means by which the Commission addresses one of an authorizer's core responsibilities: protecting the public interest. The Framework requires the School to meet all applicable federal, state, and local laws and regulations as well as contractual requirements.

The Commission shall continually monitor the performance and legal compliance of the public charter schools, and will evaluate and assess performance under the Organizational framework annually and at renewal by:

Exhibit “A”: Financial Performance Framework

EXHIBIT “A”

FINANCIAL PERFORMANCE FRAMEWORK

Introduction

The Financial Performance Framework (“Framework”) serves as a tool for the Commission to assess the financial health and viability of charter schools in its portfolio. The framework intends to provide a financial frame of reference based on current and past financial performance of charter schools. The indicators used in the framework are based on industry standard financial measures (e.g. ratios, variances) designed to be viewed in the aggregate with other complementary and supplementary information (e.g. timely and accurate financial and reporting practices, management practices). No single indicator or point in time data point gives a full picture of the financial situation of a school. Taken together, however, the indicators provide a qualitative assessment of the school’s near-term financial health, mid-term capacity, and long-term financial sustainability.

Risk-Based Approach

The framework adopts a risk assessment model as part of ongoing oversight and monitoring of charter schools’ fiscal activities, and renewal decision-making. The model aligns the framework to the unique funding and governance environment for charter schools in the State of Hawai‘i. This risk-based approach will help identify areas of strength and weakness, highlighting controls that are designed to mitigate risks.

School(s) will be closely monitored if there is heightened risk of financial problems. Financial monitoring may include, but not limited to, requests for reports or other documentation, inquiries through written or telephone communications, desk audits, or

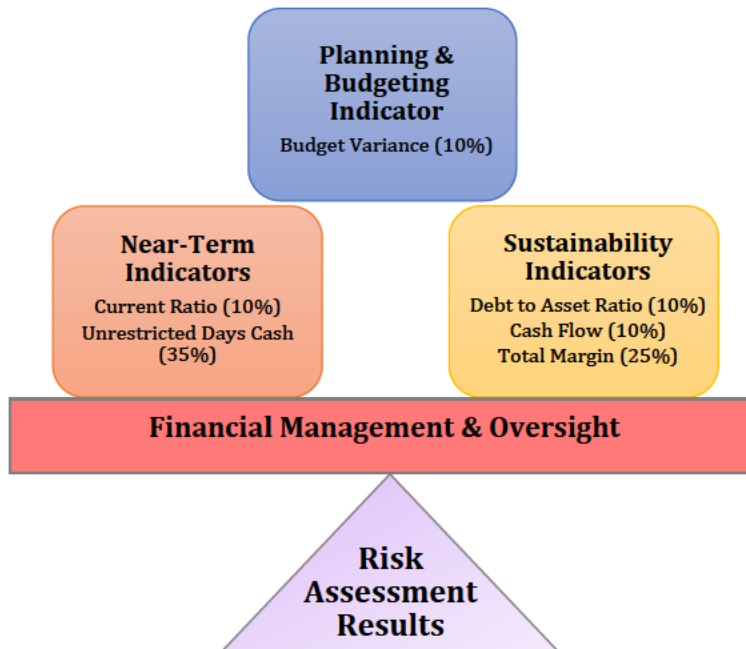

on-site visits, announced or otherwise. Moreover, a school may be requested to develop an appropriate corrective action plan to address any monitoring issues identified during the risk assessment. The corrective action plan provides a school an opportunity to explain the issue(s); identify measurable solution(s); identify the person(s) who will be responsible for each solution; set timelines; and monitor the progress of the corrective action plan.

Annual Risk Assessment Process

The annual risk assessment evaluates whether the financial viability of a school is at-risk based on the Commission’s review of financial information which will be drawn from the school’s annual audited financial statements or financial review. The inclusion of a “component unit” (an affiliated non-profit entity) may apply when a school’s annual audited financial statements include the presentation of reporting the audited component unit. The Commission’s assessment may also include other financial information and/or a more detailed examination of the school’s financial position and practices, as needed. The Commission may also consider the more current and more detailed information to determine whether the risk assessment result is still applicable throughout the assessment period and the degree to which it is, in fact, an indication of financial risk or distress or mitigation.

The risk assessment will focus on six indicators, or measures based on the National Association of Charter School Authorizers (“**NACSA**”) standards. Each indicator will be assessed on a scale from 1 to 5, with 1 being the lowest risk and 5 the highest risk. All six indicators will collectively make up a school’s overall risk level. The annual risk assessment result for a school will be determined using a balanced weighted formula utilizing the individual scores calculated for each indicator as follows:

$$(Current\ Ratio\ x\ 0.10) + (Unrestricted\ Days\ Cash\ x\ 0.35) + (Debt\ to\ Asset\ Ratio\ x\ 0.10) \\ + \\ (Cash\ Flow\ x\ 0.10) + (Total\ Margin\ x\ 0.25) + (Budget\ Variance\ x\ 0.10)$$

The individual and final risk assessment results will be represented as one of five categories based on the school's risk assessment calculations as color-coded below and will be rounded to the nearest whole number.

Low	Acceptable	Moderate	High	Significant
1	2	3	4	5

Near Term Indicators

Current Ratio

$$\text{Current Ratio} = \text{Current Assets} \div \text{Current Liabilities}$$

The current ratio shows the relationship between a school's current assets and current liabilities. Current assets are balance sheet accounts (e.g. cash, receivables) that include the value of all assets that are expected to be converted to cash through normal operations within the current fiscal year. Current liabilities represent obligations (e.g. payables, accrued payroll, accrued vacation) that are payable in cash within a fiscal year. This ratio gives an indication of a school's ability to pay its obligations over the next twelve months. A school may be at-risk if it is unable to meet its current obligations.

This indicator accounts for **10 percent** of a school's aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant
Ratio is greater than (>) 1.5	Ratio is between 1.35 – 1.5	Ratio is between 1.2 – 1.35	Ratio is between 1.0 – 1.2	Ratio is less than (<) 1.0

Unrestricted Days of Cash on Hand

$$\text{Unrestricted Days Cash} = \text{Days Cash} \div \left[\frac{\text{Total Expenses} - \text{Depreciation Expense}}{365} \right]$$

The unrestricted days of cash on hand provides the number of days a school can pay its current expenses without another inflow of cash. Cash balances fluctuate since schools can expend and receive money on an almost daily basis. It indicates whether a school maintains a sufficient cash balance to meet its cash obligations. A school may be at-risk if there is insufficient cash to meet its cash obligations.

The indicator looks at a fixed point in time (the time the financial statement is prepared) and a trend over a period of time. Although this indicator is at a fixed point in time, it tells whether a school may have challenges in meeting its cash obligations. Note that this indicator looks at unrestricted cash, not cash that already has been earmarked for a specific purpose, such as renovations or facilities.

This indicator accounts for **35 percent** of a school’s aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant
Days Cash is more than 60 days and having an upward or downward trend over three years or more	Days Cash is between 50 – 60 days and having an upward or downward trend over three years or more	Days Cash is between 30 – 50 days and having an upward or downward trend over three years or more	Days Cash is between 20 – 30 days and having an upward or downward trend over three years or more	Days Cash is less than 20 days and having a downward trend over three years or more

Sustainability Indicators

Debt to Asset Ratio

$$\text{Debt to Asset Ratio} = \text{Total Liabilities} \div \text{Total Assets}$$

The Debt to Asset Ratio compares a school’s financial liabilities against the assets it owns. A lower ratio generally indicates stronger financial health. A higher ratio indicates that the school may be at-risk of not being able to pay back its debts. It is generally accepted indicator of potential long-term financial issues.

This indicator accounts for **10 percent** of a school’s aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant
Ratio is less than (<) 0.2	Ratio is between 0.2 – 0.4	Ratio is between 0.4 – 0.5	Ratio is between 0.5 – 0.75	Ratio is greater than (>) 0.75

Cash Flow

$$\text{Cash Flow} = \text{Year-end Cash Balance} - \text{Beginning Year Cash Balance}$$

Cash Flow measures a school’s change in cash balance from one period to another. This indicator is similar to days’ cash on hand, but it provides insight into a school’s long-term stability, as it helps to assess a school’s sustainability over a period of time in an uncertain funding environment. A positive cash flow over time generally indicates increasing financial health and sustainability.

This indicator and accounts for **10 percent** of a school’s aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant
Current Year Cash Flow is positive (+) and having an upward trend over three years or more	Current Year Cash Flow is positive (+) and having an upward or a down trend over three years or more	Current Year Cash Flow is either positive or negative (+/-) and having an upward or a downward trend over three years or more	Current Year Cash Flow is negative (-) and having an upward or a downward trend over three years or more	Current Year Cash Flow is negative (-) and having a downward trend over three years or more

Total Margin

$$\text{Total Margin} = \text{Net Income} \div \text{Total Revenue}$$

Total Margin measures the surplus or deficit a school yields out of its total revenues. This indicator is important because a school cannot operate at a deficit for a sustained period of time without the risk of closure. The intent of this indicator is not for the schools to be profitable, but is important for charter schools to operate within its available resources in a particular year and to build a reserve to support growth and sustainability.

This indicator is calculated by dividing net income by total revenue and accounts for **25 percent** of a school’s aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant

Planning & Budgeting

Budget Variance

Budget Variance = Actual Total Revenues ÷ Projected Total Revenues in the Charter School's Board-Approved Budget

The budget variance depicts actual versus projected incoming revenues for a fiscal year. This indicator is important because revenues drive the development of a school's budget. While the per-pupil funding is the primary revenue source for charter schools, there are other sources (e.g. federal funds, grants, other state funds) that provide the basis for determining costs such as staffing and supplies. A budget based on revenues that are significantly more than its actual revenues may be at-risk of not meeting all of its budgeted expenses. Budgeted revenues that do not exceed actual revenues would not have a significant impact to the risk assessment rating scale.

This indicator accounts for **10 percent** of a school's aggregate final risk assessment.

Low	Acceptable	Moderate	High	Significant
Variance is greater than (>) 99%	Variance is between 96% – 98%	Variance is between 94% – 95%	Variance is between 91% – 93%	Variance is less than (<) 90%
