At its June 25, 2020 General Business meeting, the Commission approved a list of the three auditors submitted by a Commission working group to be implemented on July 1, 2021.

The following year, at its July 8, 2021 General Business meeting, the Commission voted to add Carbonara CPAs to the list of approved auditors.

Under Hawai'i Revised Statute §302D-32, each charter school shall annually complete an independent financial audit that complies with the requirements of its authorizer and the Department of Education. The authorizer shall provide to each charter school it oversees a list of approved independent auditors, from which the charter school shall select one independent auditor to comply with this section.
